3. Incorrect Editor Names – Double check the editors listed on the title page.
4. Inconsistent Style – Mixing citation styles within a single paper creates confusion.
5. Omitting Publisher Details – The publisher’s name and location are mandatory in most styles.

12. Using Citation Management Tools

Software like Zotero, EndNote, and Mendeley can streamline the process. Import the anthology’s bibliographic details from library databases or the publisher’s website, and let the tool generate citations in MLA, APA, Chicago, or Harvard formats. Remember to double check the output for accuracy, especially the edition number and page ranges.
