Who is Yulia Tymoshenko?

Yulia Tymoshenko, born on October 27, 1960, in Dnipropetrovsk (now Dnipro), is a Ukrainian economist, politician, and former prime minister. Raised in a modest family, she pursued higher education at the National Technical University of Ukraine "Igor Sikorsky Kyiv Polytechnic Institute," earning a degree in mechanical engineering. Her early career in the private sector, particularly in the energy sector, laid the groundwork for her later political ambitions.

Tymoshenko's political journey began in the early 1990s, a period marked by Ukraine's transition from Soviet republic to independent nation. She quickly rose through the ranks of the Party of Regions, becoming a prominent figure in the country's nascent democratic landscape. Her charisma and advocacy for economic reforms earned her widespread recognition, eventually culminating in her appointment as Ukraine's first female prime minister in 2005.
